

## GROUPS

Turn every online session into an engaging, collaborative learning experience

### Convert conversations into knowledge

Constructor Groups redefines online education and training, offering an all-in-one solution to create, deliver, and analyze interactive online and hybrid sessions

### Session lifecycle: Engage and collaborate

#### Prepare in advance

- Create detailed lesson plans
- Upload teaching materials
- Design interactive learning activities (quizzes, polls, collaborative whiteboards)

#### Resource optimization

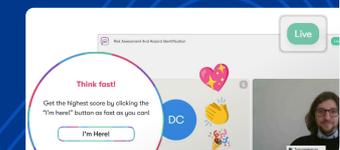

- Follow structured lesson flows
- Use live collaboration tools and integrations (Miro, Google Docs)
- Easily manage breakout rooms for group activities

#### Analyze engagement and results

- Review real-time statistics and engagement data
- Examine whiteboard annotations and shared content
- Share session results directly with learners

#### Adjust, improve, and reuse

- Quickly update and reuse lesson plans and materials
- Integrate feedback for continuous improvement
