# CONSTRUCTOR TECH

LEARN

One powerful LMS to manage, deliver, and track learning

Create and deliver personalized courses using AI

Constructor Learn is an AI-driven platform that delivers personalized, interactive, and scalable learning for academic institutions and corporate environments. It seamlessly integrates with other Constructor Tech products, supporting a unified digital learning ecosystem.
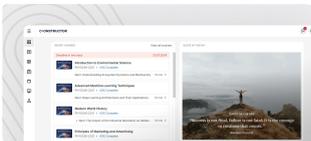

### Higher Education

Content delivery & learning path management

**Student engagement & communication**

Tracking student outcomes

Corporate

Partner training & certification

Employee onboarding

Compliance training

AI capabilities

- Smart content suggestions
- Adaptive orchestration
- Personalized learning paths
- Real-time AI insights
- AI-powered spaced repetition

What makes Constructor Learn different?

📅 Smart scheduling
Automate sessions, reminders, and collaborative planning

⸙ Interactive tasks
Built-in coding labs, simulations, Jupyter, quizzes, videos - all in one

👥 Group collaboration
Enable seamless teamwork with shared libraries, real-time messaging, and feedback tools

⚙ Engagement
Feedback, badges, and nudges to boost motivation and completion

◎ Advanced analytics
Real-time dashboards, automated grading, exportable BI-ready reports

⊟ Less admin work
Automate repetitive tasks like enrollments, progress tracking, and grading

↻ AI Tutor
Real-time support for learners - instant answers and smart content recommendations

✥ Open API
Seamless integration with your tech stack - HRIS, CRM, SIS, more

⤳ Constructor Model
Adaptive AI engine for dynamic learning orchestration

"This project was more than just an upgrade — it was a cultural shift. Our academic staff and students were struggling with fragmented systems that added complexity to their daily lives. By partnering with Constructor Tech, we not only unified our digital ecosystem but also gave everyone the tools to thrive in a truly modern learning environment."
